

FIGHT MICROPLASTICS: HERCULITE CURTAINS MADE WITH RENEGADE

Herculite Products® has partnered with Renegade Plastics® to offer a more sustainable alternative to woven poly curtains. Herculite agricultural curtains made with Renegade's polypropylene-based fabrics protect your livestock and livelihood with a long lasting product that reduces the risk of microplastic pollution on farms.

How Herculite® Curtains Made with Renegade Help You:

- Higher abrasion resistance increases life compared to traditional polyethylene curtains.
- Free of heavy metals, PFAS & BPA
- UV stabilized & chemically resistant.
- Made with Herculite® Sonic Stitch
- Recyclable with Renegade.*

Evolve your operation from fraying curtains that create microplastic pollution to long lasting Herculite® curtains made with Renegade.
